

Make a Flipbook

You need:

- two flipbook sheets
(use printing paper that is a bit heavier)
- a rubber band
- scissors

Let's start:

1. Cut the stripe with the title and the description off the sheet. Leave both parts together. This will be the cover of the flipbook.
2. Cut out all pictures.
3. Sort the pictures. Which one comes first, second and so on?
4. Stack them. Flip through to make sure the pictures are in the correct order. Gently tap the pile on the table to make sure the pictures are justified at the side where the thumb strokes over the pictures.
5. Put the pile into the folded cover sheet.
Trim the ends of the cover sheet if necessary.
6. Wrap the rubber band around the flipbook.

Done!
